Note, technological and political developments, among other topics, have undergone **recent change** and made stunning advancements that are yet to be captured here. For example, when this book project was started, the Internet was in its infancy. The rapid advances in the global communications systems alone is worthy of note in the Creator's Window. So, in some places you may fill in certain logical gaps as you read by simply thinking of and integrating your understanding of current events.

**The purpose of the Creator's Window fits within the larger scope of WindowView.org. To better understand how all this fits within the window's holistic view, we encourage a visit to the WindowView web site. Moreover, an outline for the entire writing project, of which this document is only one part, can be best appreciated by reading the outline for the Creator's Window at the web site. Please reserve your assessment of this presentation until you see the outline for its larger context.**

**WindowView.org is a thought resource that entertains a larger perspective based on **Origins** (as related through scientific evidence and a look at the Scriptures that identify a beginning to our universe), to current **Global Changes** (which you are familiar from reading the nightly news), **Time Lines** (based on science, human history in general, and biblical projections), and finally the role of a specific **People Group** that has been an intended messenger... one group that is meant to shine a light on the path ahead of all humanity. Sounds like a tall tale? Well, you are living today with all the evidence that is used here... come see how it looks through the Window's View!**

**Look, discern, then decide for yourself what it all means to you personally!**

**Thank you for downloading this work.**
